Access, Assessment and Referral Services

Michigan Department of Community Health,
Mental Health and Substance Abuse Services
Office of Drug Control Policy

2006

Michigan Department
of Community Health,
Mental Health and
Substance Abuse Services,
Office of Drug Control
Policy

**Access, Assessment and
Referral (AAR) Services**

Goal of AAR Services

Goal of AAR Services

To improve access to the substance abuse system, to provide initial objective assessments, and to arrange for client placement in appropriate services.

AAR Services:

Each region in Michigan has AAR services available. AAR agencies promote these services:

- *Provide a central point of entry to substance abuse treatment services*
- *Determine financial eligibility*
- *Provide an initial assessment for alcohol, tobacco, and other drugs*
- *Refer to substance abuse treatment*
- *Refer to other support services*
- *Provide case management services*

AAR services are available to all individuals in a community. Individuals in need of state-funded residential services or intensive outpatient services must be assessed by an AAR agency before entering these programs.

Preference for admission to substance abuse treatment is given to:

- *Pregnant injecting drug users*
- *Pregnant substance abusers*
- *Injecting drug users*
- *Parents whose children have been, or are in danger of being, removed from the home under Michigan child protection laws because of the parent's substance abuse.*
- *All other individuals*

For more information, call the AAR agency in your area.
